

Priors Field Primary School

Mission Statement

Growing Together, Ready For Life.

Vision Statement

The 'people growing' business is about encouraging a desire to learn, an enquiring mind, good manners, honesty and a concern for the well-being of others. Our vision and values enable the children to....

learn together....Our school community recognises the important contribution everyone can make. We are **respectful** of each other and celebrate our **diverse** talents and individuality. The arts, sporting activities and life-skills rest comfortably alongside the more academic subjects. Everyone is a **team player, responsible** for creating a warm and stimulating atmosphere where children and adults work and flourish together underpinned by **enthusiasm, encouragement** and high expectations.

achieve their potential.... With an 'I can' attitude and a growth mind-set, the children are encouraged to be **independent** learners and be **motivated** to do always do their best. By developing children's **confidence** and a **determination** to succeed, they are **courageous** and **resilient** when **challenged** by new experiences and problem solving. The impressive displays and celebrations of achievements make our children **proud**.

be curious....Creating **life-long learners** is what we are about! Minds are continuously challenged to be **creative** and enquiring as children become **investigators** of the past, make sense of today and create the future. We are proud of our outdoor space and Forest School. The children love to be **outdoor learners**, being **curious explorers** of the environment around them.

be inspired....Our curriculum is creative and exciting and the children have **fun** learning. Both in the classroom and in our outdoor environment the children are able to be **active** and **adventurous** in their learning. We aim to provide and encourage the skills for the children to be **inspired** to learn with a **positive** attitude to be an **achiever**, which will stand them in excellent stead for the future ahead. We develop enquiring minds and foster the highest standards and **aspirations** – our children recognise and believe that, with focus, determination and commitment, anything is within their reach.

belong to our school....Everyone who belongs to our school family work together to ensure we all feel **safe** and **happy**. Our safeguarding procedures and practices are comprehensive and of the highest standard. Our system for restorative justice treats every child as an **equal**, believing that everyone should have an opportunity to put things right. Both children and adults alike will embody the highest standards of politeness, manners and respect for each other and ourselves. We recognise and value the importance of a strong and positive relationship with our parents and carers. We facilitate and encourage a full and strong home/school relationship. We aim to be **supportive** and offer timely advice and feedback on the progress and experiences of every child. We celebrate and share our difference and **unique** qualities. We aim to give every child **equal** and **inclusive** access to a wide and innovative range of experiences, challenges and achievements that will stimulate and excite. Our **caring** ethos welcomes new members of our community so that they quickly feel comfortable and a **valued** member of our school family.
